You MUST see your retailer or check online application guide for current truck application information

The 29VHD Series flared wing V-Plow has our patented Ground Hugger™ blade design coupled with the MaxAdJUST™ Leveling System to keep the plow on the ground with optimal alignment that eliminates snow trails.

MAXIMUM SNOW MOVING CAPACITY

DOWNPRESSURE® STANDARD

V-SERIES PLOWS

FEATURES

Sno-Way's Patented MaxADJUST™ Leveling System allows the user to make adjustments while standing in front of the plow instead of from underneath. The operator can adjust the center hinge for perfect plowing alignment and eliminate a

snow trail. This system allows for easy use on fleets that use more than one type of truck model because there is no plow frame disassembly necessary for proper fit to each truck.

Series 2 Package

- LED Thermosensitive heated Lights
- Pro Control 2 Plus (controls plow & lights)
- Upgraded Hydraulics Package
- Outboard Mount Stand
