Sno-Way has an ice control product to fit your needs! Large or small, Sno-Way’s Revolutionary Spreaders are built to perform. Each Sno-Way spreader offers unique, productivity-enhanced features not found on competitive products. Features that help you get your job done fast and efficiently. No other spreader can provide you as much control of the spread material as a Sno-Way spreader.

**CHOOSING THE RIGHT SPREADER For Your Application.**

**LIGHT COMMERCIAL**

- **4/6/9 CU. FT. SPREADER**
  - Fits any truck with a 2” receiver

- **REVOLUTION V-BOX SPREADER**
  - Model RVB10
  - For use with UTV and trucks

When the white stuff falls, whether you plow one driveway or are in it to make some green, Sno-Way has the right spreader for your vehicle.

**COMMERCIAL**

- **REVOLUTION V-BOX SPREADERS**
  - Models RVB1000 | 2500 | 3500 | 4300

You’re serious about snow and ice control and at the top of your game. You have a full hard-working crew who know how to move and remove snow and ice efficiently. By using the RVBs, and planer you take care of all jobs big and small.

Visit [snoway.com](http://snoway.com) for video, updates and so much more.
· Spread materials can attract moisture and freeze, resulting in equipment damage. Always clean and empty all ice control material from the spreader when not in use.

· Always match spreader gross weight capacities with the vehicle GVWR specifications.

· Bagged ice melters and calcium chloride are hygroscopic (attract moisture) and may become compacted when loaded into Sno-Way tailgate spreaders. The use of a vibrator kit may be required with these spread materials.

· This chart is a GENERAL guideline. Always follow the recommended application directions for spread materials.

· Material must be free-flowing to work in the tailgate spreaders. If material is not free-flowing, replace it.

**SPREADER MATERIAL GUIDE**

Always follow the recommended application directions for spreader materials.

**SODIUM CHLORIDE**
Rock Salt
Recommended For Use With:
- All Spreaders

**CALCIUM CHLORIDE**
Flake
Recommended For Use With:
- All Spreaders

**BACKED ICE MELTERS**
Free Flowing
Recommended For Use With:
- All Spreaders

**BAGGED ICE MELTERS**
Free Flowing
Recommended For Use With:
- All Spreaders

**SELECTING Your Sno-Way® Tailgate Spreader**

**REVIEW SPREADERS**

Review all Sno-Way® spreader models.

**SPREADER MATERIAL**

Sno-Way® spreaders are built to spread a variety of deicing material.

**CHOOSE SPREADER**

With your application vehicle, spread material and coverage in mind, choose the right spreader for your job site needs.

**CHOOSE ACCESSORIES**

Sno-Way®’s productivity enhancing accessories help you get your deicing job done fast! See page 15 for available spreader options.

**VARIABLE SPEED CONTROL**

Sno-Way®’s Variable Speed Control for tailgate spreaders is packed with features that help you get the job done on time and on budget.

- Wired or wireless variable speed control for your tailgate spreader. If you have a Sno-Way® Plow with a Pro Control II or Pro Control 2 Plus you can use that control to operate your tailgate spreader.

- The Variable Speed Control is available in a wired or wireless configuration — your choice depending on operator and vehicle variables. Features include solid-state construction, complete spread control with spread rate indicators, and push button controls from the control unit on and off.

If you already own a Sno-Way® Plow with a Pro Control II or Pro Control 2 Plus you do not need another control, either of these will control both your spreader and plow.

**4-CU.-FT. SPREADER**

Ideal for treating sidewalks, driveways and small parking lots, the Sno-Way 4-Cu.-Ft. Tailgate Spreader is the smart solution for small to midsize deicing applications. The Sno-Way 4 delivers an all-new performance level to tailgate salt spreading. No other spreader in its class can match the simplicity of its design, ease of use and rugged construction. An empty weight of just 95 pounds, the Sno-Way 4 is perfect for single operator handling. The integrated wheels and tapered Class III hitch make attaching the spreader a snap.

Visit snoway.com for video, updates and so much more.
When you require more salt spreading capacity for larger driveways, access roads or parking lots, look for Sno-Way 6 and Cu.-Ft. Tailgate Spreaders to deliver. These high-capacity receiver-mount spreaders provide durability and spreading precision that are second to none. The Sno-Way 6 and its big brother Sno-Way 9 — share the same solid features you expect in a Sno-Way spreader. Poly hopper construction, powder-coated steel frame, form-fitting poly lid, 12V electric motor and a simple belt drive. The integrated wheels and tapered Class III hitch make handling and attaching these spreaders a snap.

The Revolution V-Box family has a roto molded perimeter with ribbed hopper, supported by a custom frame and drive support.

- The easy on/off stainless steel and roto molded chute has a 16" four flute poly spinner to provide you long life and superior spread pattern up to 30'. Available in 16" short chute or 29" long chute. Choose one to go with your RVB Spreader (chute not included with spreader).

JAM RELEASE MECHANISM
(FOR USE UP TO AND INCLUDING THE RVB2500)
Jams can happen, even with the best spreaders. This device is a life saver keeping you from digging out the hopper. Simply insert this into the end of the Auger Shaft and the use of a simple ratchet wrench and you are back in business. For use on the RVB spreaders.

REVOLUTION V-BOX SPREADERS
RVB10 | 500 | 750 | 1500 | 2000 | 2500 | 3500 | 4300

RVB10 and 3500 and 4300 have a .6 horsepower direct drive gear box for the auger and a 1/3 horsepower spinner motor, they are fully enclosed so that water and salt do not penetrate.

Select one of the quality materials to spread. For complete information see snoway.com. Always follow recommended application for spreader materials.

**RS CONTROL**

RS CONTROL allows the operator to independently adjust auger and spinner speed to control output at a much lower cost than the auger or spinner. This reduces wasted material and improves profit. Contractors that use the Revolution V-Box spreaders along with the RS control are able to save time, labor, and money compared to their competitors.

- **RS CONTROL REVOLUTIONARY AUTO MODE SETTING**
  - All functions can be controlled in Auto Mode
  - Auto mode feature
  - Pause button allows you to pause all functions and resume all functions
  - Turn off all optional functions
  - Well lit LCD screen with auger and spinner graph display
  - Turn on/off optional light
  - Turn on and off vibrator
  - Turn on and off wetting system (wetting system optional on RVB line)
  - Turn on and off spinner (spinner speed is controlled by RS control)
  - Increase/decrease spinner independently
  - Increase/decrease auger independently
  - Turn on/off light

- **RS CONTROL REVOLUTIONARY CONSTANT DRIVE FEATURE**
  - Allows the vibrators to turn on and off independently using pinwheels to increase or decrease spin rate of the auger or spinner.
  - Turn on/off vibration system.
  - Touch screen display.
  - Easy to use and understand.
  - Tension decrease auger independently.
  - Turn on off light.
  - Quick disconnect couplers for easy use on spreader chute.
  - Compatible to the auger and spinner.
  - Can use on/off switch OR RS control that handles all spreader controls.
  - Anti-backpack system.
  - Material flow sensor.
  - System monitors the auger to make sure material is flowing through the auger.
  - Auto mode feature.
  - Quick attach pump fitting for easy maintenance.
  - Can use on/off switch OR RS control that handles all spreader controls.
  - Anti-backpack system.

- **RS CONTROL REVOLUTIONARY DROP SPREADER HOOD**
  - For use only on the short chute of the RVB10 or RVB500.
  - Made of high density polyethylene to hold up to harsh winter elements.
  - Provides a 30”-60” spread.
  - No tools needed for easy attachment to spreader chute.
  - Hood stores easily on built-in carrier.
  - Provides a 30”-60” spread.
  - No tools needed for easy attachment to spreader chute.

- **RS CONTROL REVOLUTIONARY SALT WETTING SYSTEM**
  - SWS (Optional Accessory)
  - SWS Filling Station
  - Tanks are marked with volume levels
  - Modified, reinforced stainless steel frame
  - Accelerates melting process and reduces amount of salt needed
  - Tanks fill at a top rate of 5 gallons per minute, filler cap included.
  - Standard pump included.
  - Can use on/off switch OR RS control that handles all spreader controls.
  - Quick disconnect couplers for easy use on spreader chute.
  - Anti-backpack system.
  - Material flow sensor.
  - System monitors the auger to make sure material is flowing through the auger.
  - Auto mode feature.
  - Quick attach pump fitting for easy maintenance.

**ACCESSORIES**

designed to fit your spreader.

Engineered by Sno-Way for maximum performance and perfect fit, factory – original Sno-Way parts and accessories put your spreader into productivity overdrive. Sno-Way has the tools to help you get your job done fast.

Sno-Way's auxillary power harness for the tailgate helps provide electricity to your spreader for lights and controls. Use Sno-Way recommended auxillary power harnesses at all times. Sno-Way recommends a 12 volt, .6 HP motor and a 30 amp fuse basket. 

**ANTI-CORROSION COMPONED**

Sno-Way's corrosion resistant component is designed for maximum resistance to rust and corrosion. Use Sno-Way recommended auxillary power harnesses at all times.

**JAM RELEASE MECHANISM**

Jams can happen, even with the best spreaders. This device is a life saver keeping you from digging out the hopper. Simply insert the ratchet wrench and supply excellent illumination for increased visibility during early morning or night salting applications. Includes mount hardware and supply electrical switches and contacts. Sno-Way recommends auxillary power harnesses at all times.

**VIBRATION MOTOR KIT**

The Sno-Way transport brush kit stops fine materials such as calcium chloride from escaping out of the hopper during transport. The kit includes brushes for easy plug and go circuitry. Pictured RVB Spreader Light Kit.

**SPREADER AUXILIARY POWER HARNESS**

Sno-Way auxiliary power harness for the tailgate helps provide electricity to your spreader for lights and controls. Use Sno-Way recommended auxillary power harnesses at all times.

**RENEWAL V-BOX SPREADER FAMILY**

**REVOLUTION V-BOX SPREADER FAMILY**

**SNO-WAY SPREADER LIGHT KIT**

Sno-Way's 3-1/2 Cubic Yard auxillary power harness for the tailgate helps provide electricity to your spreader for lights and controls. Use Sno-Way recommended auxillary power harnesses at all times.

**NYLON RATCHET STRAP KIT**

**JAM RELEASE MECHANISM**

**VIBRATION MOTOR KIT**

**SPREADER AUXILIARY POWER HARNESS**

Sno-Way auxiliary power harness for the tailgate helps provide electricity to your spreader for lights and controls. Use Sno-Way recommended auxillary power harnesses at all times.
